Dear Reader.

ALL DIGITAL Newsletter

Issue n.3 - June 2023

the yearly pan-European awareness raising campaign on digital skills for inclusion, empowerment and employment ALL DIGITAL Weeks 2023 Campaign was a successful landmark for the ALL DIGITAL network during April and May! We would like to thank the supporters, **European Commission, Microsoft** and Certiport, the 21 ALL DIGITAL members who engaged with national coordinators role, the 19 strategic partners, the local event organisers and all the **90.000 participants** that enhanced their digital skills in training, event and courses organised in their community in more than 30 countries.

On 19th April we organised the international launch event focused on EU policies and projects related to digital skills and education, featuring among the different speakers, a keynote speech by **Nicolas Schmit**, EU Commissioner for Jobs and Social Rights. If you missed it, you can watch the recordings here. Besides, many international events related to EU projects where ALL DIGITAL is involved took place during the campaign, check them here.

On 20th April the **ALL DIGITAL General Assembly** took place in Brussels. We are happy to share with you the newly elected ALL DIGITAL Board

We have extended the deadline for the ADWeeks 2023 awards to allow all interested local and national event organisers as well as national coordinators to participate and submit their application. To apply please consult the ADWeeks website and fill in the form. You can win a trip to Zagreb to the ALL DIGITAL Summit 2023 on 25-27 September.

ALL DIGITAL Weeks will continue its contribution to the promotion of the European Year of Skills. launched by the European Commission, we would like to invite you as well to the **ALL DIGITAL Summit 2023**, taking place on 25-27 September in Zagreb where skills will be the main focus, as the title of event states: "Digital Skills for tomorrow".

You can also find the ALL DIGITAL Annual Report 2022 and very important **news from our members** involved in interesting and impactful projects and activities across Europe. Don't miss them. Read more in the members section!

We look forward to keep on working with you. Stay tuned!

Yours, ALL DIGITAL Team

The International Launch Event of the ALL DIGITAL WEEKS 2023 Campaign took place on 19.04.2023 starting with the keynote speech from the EC Commissioner for Jobs and Social Rights, Nicolas Schmit. If you have missed this insightful event check the event's recordings here !

You can also check the videos from the international events organised by ALL DIGITAL and the strategic partners here !

ALL DIGITAL Summit 2023 - Digital Skills for Tomorrow

Join us for the ALL DIGITAL Summit 2023 - Digital Skills for Tomorrow, the premier event for learning and networking in the digital education world. Taking place from 25th to 27th September **2023** in the beautiful city of Zagreb, this three-day event will bring together experts from around Europe to share their knowledge and insights on the latest developments in digital education and training. More information coming soon!

New ALL DIGITAL Board 2023/2025

We are excited to announce the new ALL DIGITAL Board for the 2023-2025 term. The Board was elected on the 20th of April 2023 in Brussels during the ALL DIGITAL General Assembly, which took place in the context of the ALL DIGITAL Weeks 2023 campaign! More information here.

News from our members

On 27.04.2023, the Leipzig Book Fair opened its doors for the first time in four years. There, many interested people came to Helliwood's Digital Learning Lab to exchange ideas on the topic of artificial intelligence (AI) and try out exciting applications. Over 100 students attended exciting workshops to create a digital book with the help of AI tools. With ChatGPT. contributions and articles were created on how work will develop due to the existence and development of AI. How will the fields of activity of authors or illustrators change? These texts were accompanied by the imaging AI: Dream Studio. The results can be found in the digital book.

The European Association for Local Democracy - ALDA will organise the international final conference "Education becomes digital" of the P-CUBE project, funded by Erasmus+, on June 7 from 4:00pm to 5.30pm CEST in Brussels at Maison Hap.

international conference

Find more here.

It will focus on digital education, with particular attention to 2023 as the "European Year of Skills", and to "digitalisation" as one of the pillars of the Erasmus+ programme. This event will be organised in the framework of the ALDA's Local Democracy will Save Democracy Festival and General Assembly. ALL DIGITAL will participate in the event as a speaker and member of ALDA.

Here you can find more on the General Assembly and Festival and you can register via this link

The pioneering initiative with the first-ever traveling classroom in Slovenia is continuing its journey with an extended season of the initial success of the social enterprise, Simbioza Genesis - Simbioza Mobiln@. The mobile classroom prompts an expanded season for the third consecutive year, providing essential digital skills and fostering integration into the digital landscape. By reaffirming commitment to lasting change, Simbioza Mobiln@ ensures older adults aren't left (digitally) behind. Its triumph inspires others globally, emphasizing collaboration to bridge the digital divide. Simbioza Mobiln@ remains dedicated to empowering older adults, nurturing digital literacy, and paving the way for a brighter, inclusive future.

The third age University students successfully learn to go digital (Lithuania)

In the framework of All Digital Weeks the spring training session of the project "Information Technologies Connecting Generations" funded by the Ministry of Social Security and Labour of the Republic of Lithuania were organised. The project aims to reduce the digital skills gap among the society by motivating elder people to be interested and learn more about digital technologies in partnership with the younger generation that encourages and helps them to improve their digital skills. For the second time, the spring training session brought together young people (up to 29 years old) to teach the audiences from third-age universities to be more confident with digital technologies and to be safe online.

ECCC Foundation organized the SCIENCE CONNECTS – Digital Skills for All Conference on 28.02 - 01.03.2023, which was held in Alexandria.

Egypt. During the conference ECCC experts presented the DigComp, DigCompEdu and ECCC achievements. Scientists and experts from Egypt, Poland, Italy and Cyprus shared their digital experience and discussed how to develop digital competences by implementing and using DigComp. During the conference, a Memorandum of Understanding was signed to implement DigComp in the Arab language for Arabic countries. On the 17th of May ECCC/DigComp training started for Arabic partners. Read more here.

The EVBBQ - An exclusive networking event at the EVBB premises

The EVBB, the European Association of Institutes for Vocational Training, hosted on the 11th of May 2023 a networking event to officially inaugurate the opening of the new premises in Bd. Charlemagne 28, at the heart of the European Union. The event brought together around 40 people from the EVBB network, from partners, associations, and public representatives, as invited to visit our renovated terrace (with a BBQ!) and our offices. Follow us on social media here.

Increase digital, social and political participation through an intergenartional approach: the e-EngAGEd project

What do citizens think about disinformation, digital citizenship and online civic and political engagement? How can we support you in the conscious and correct use of communication tools?

The e-EngAGEd, funded by the European Commission's Citizens, Equality, Rights and Values programme (no. 101081537-E-engAGEd-CERV-2022-CITIZENS-CIV) aims to develop a media education pathway aimed at young people (aged between 18 and 25) and adults over 50, to increase digital, social and political participation through an intergenerational approach.

By completing the questionnaire you will help us to better understand these aspects in order to develop guidelines and plan training events. Further information on the project and its goals are available here.

The Digital Equity Laboratory

The Educational Opportunities Laboratory is structured around the spaces. These are topics where education interacts with emerging technologies and social transformation missions. Thus, each space invites us to reflect, share and start Digital Equity initiatives. Explore all the challenges that exist within each of the spaces that make up the laboratory.

Currently, we are identifying a mapping of initiatives that we consider addressing the issues we want to identify in the Key Educational Opportunities Laboratory of Digital Equity. Do you know any project that emphasizes and shares values and a mission in favor of Digital Equity? We would love to learn about the initiative, to join forces and, little by little, create a community involved and committed to Digital Equity.

AUPEX, in extremadura (Spain), organises more than 100 events to celebrate All Digital Weeks

From Extremadura, Spain, the All Digital Weeks have taken place from April 17 to 28, with 101 events held in digital skills centers, reaching over 800 participants. This year's focus was on enhancing digital skills, with core themes such as media literacy, equity and inclusion, cybersecurity, and digital well-being. The workshops aimed at upskilling and reskilling individuals, with a specific focus on fighting against

disinformation, generating resumes to boost employability, and protecting personal data and privacy.

The highlight of the events was a webinar with Cristina Gutierrez Borge, an expert from the Cybersecurity Institute of Spain. The session covered the latest cybersecurity news, devices, and personal data and privacy protection, attracting high participation. The ALL DIGITAL Weeks have again proved to be a significant platform for developing and enhancing digital skills of Extremadura's citizenship. Find more information here.

A first goal achieved for WeTechCare V

When WeTechCare was created in 2016, our goal was to support 1 million people on basic digital skills. Seven years later, this symbolic milestone has been reached!

 \mathscr{G} If this figure is a source of pride, it motivates us above all to do even more for the millions of people who remain in difficulty with digital. How ?

the by applying our expertise on digital inclusion in all relevant sectors. to by continuing to develop a direct link and hybrid and tailor-made learning solutions for the public. *the by relying on a network of ambassadors and local partners to act as* closely as possible to the needs of the field.

A XI Forum of Inclusive Employment and Entrepreneurship on June 9th

This European Event, organized by the European Network of Innovation for Inclusion of Acción contra el Hambre, is an annual date that brings together national and European experts in the field of social innovation. It is an inspiring space in which to learn about European priorities in innovation to generate a more inclusive social and labor ecosystem. This meeting recognizes and shares best practices in inclusive employment and entrepreneurship from all over Europe and facilitates the meeting of key actors, favoring collaboration and networking. The event will take place on June 9, 2023, in Madrid with live streaming on YouTube

You can reserve your place via this link

EDIFY_EDU Project

The project addresses the skills gap in the sector of Management education with regards to competencies on equality, diversity, and inclusion (from now on EDI), which are more and more needed in a complex and fluid society. The project facilitates the acquisition of EDI competencies and transversal skills for management students and managers in business (in particular targeting medium-sized companies), in order to respond to the societal transformation by setting up a system for skill assessment, learning offer and validation and recognition.

More about the project here and on Linkedin

Computer Science for all - Python upskilling for teachers and educators

As Colectic we are working together with the Open University Cisco ASC in Milton Keynes, UK, and ENSICO, an educational non-profit from Portugal, on a collaborative hybrid teachers and educators development project, to support them to learn Python and extend their methodological and practical knowledge on working computational competences with kids of different age groups from 6 to 18+ years.

We are looking for volunteers to participate in a free Erasmus+ funded training programme, with the intention to develop your Python programming and Computer Science skills and learn how to teach

Python + Computational Thinking skills as part of a co-led remote group. You must be in education or training, supporting students up to the age of 18.

Register to get access to the hybrid learning platform and the webinar sessions, and consult our website for more information!

Upcoming educational programs from EPMA

We have had a very busy Spring in EPMA and would like to share at least a few of the highlights. We have been developing an online course and best practices in our EduLeaders project, which aims at empowering school leaders to become confident, know where they are going and not be afraid of making changes in their institutions. We have also been developing a gamified educational program on cybersecurity under the CyberBOX project. Specifically for kids, we are developing an app under the MyHood project, which will enable the involved youths to have a say on their city's urban development while receiving education on sustainability and green practices. Learn more about all this HERE.

Considered the most important event of libraries in Romania, the BiblioNEXT National Conference in Craiova brought to the fore the major role that public libraries have in collecting, preserving and promoting local cultural heritage.

Members of the consortium of partners implementing the SHIFT -*MetamorphoSis of cultural Heritage Into augmented hypermedia* assets For enhanced accessibiliTy and inclusion project, financed under the Horizon 2021-2027 programme, took part in this complex and highimpact professional event among librarian professionals, collaborators, representatives of the NGO, business environment and the participating officials. MEGASKILLS

EVALUATING THE VALUE OF SOFT SKILLS -CALL FOR PARTICIPATION

The MEGASKILLS project is evaluating the value of soft skills (also called transversal competences) in a European context and how to promote employability and productivity through their training, evaluation and certification. MEGASKILLS investigates the possibility of training these skills through the use of massive technologies such as video games, artificial intelligence and the use of big data.

The team wants to hear from you. Fill in the new MEGASKILLS SURVEY.

EQUALS-EU webinar: Closing the skills and gender gap in STEM - Where do we stand?

The EQUALS-EU project organised a webinar with the theme "Closing the skills and gender gap in STEM - Where do we stand?" on the 3rd of May 2023 in the framework of ALL DIGITAL Weeks 2023. The session gathered speakers from the flagship European initiatives on the empowerment of girls and women in STEM education, careers, and entrepreneurship across Europe and beyond to share key lessons and visions for gender equality & digital inclusion in the context of the postpandemic Europe. You can find the presentations on the event page and watch the webinar here.

MEGASKILL NEWSLETTER

The MEGASKILLS Horizon Europe project aims bridge the gap between education and the labour market through the research and design of an innovative and affordable methodology for training and evaluating soft skills.

The project just launched its Website and published its first newsletter. In this first edition the group talks about the work done to develop a unified definition, taxonomy, and model of key soft skills for the 21stcentury (WP2) that can be used as a basis for the development of these soft skills in school education and in professional development. Subscribe to receive regular updates about the project!

Zagreb ACTIon partners met on 27-28 April at the premises of Action Synergy in Athens for a partner meeting to evaluate the country piloting results and to plan the upcoming national and international dissemination events to be organised in the coming months. This was an occasion to host a policy workshop with the participation of policy and decision makers from the four piloting countries on 26 April. The ACTIon project is now in its final year: The partners developed two training programmes (DigiPAC and MOLA) to promote active citizenship through civic education and active online participation of youth role models and ran piloting activities in Bulgaria, Germany, Greece and North Macedonia. The partners are now preparing to share their results with a wider public during a final international workshop to be organised on 25 September at the ALL DIGITAL Summit in Zagreb, Croatia. (ALE) sector by developing a methodology and a tool for the direct involvement of adult educators. As one of the first steps, project partner SkillLab, with the support of European Association for the Education of Adults (EAEA), delivered a three-day training of tutors in the Netherlands on 19-21 April 2023. 10 adult educators from Belgium, Germany, Italy, Romania and Spain gathered at SkillLab's new office in the heart of Amsterdam to learn about AI and its use in adult education. The training participants will be future tutors of 100 adult educators who will be involved in the development and testing of the tool. Read more on the training of tutors here.

Do you want to know what the DigComp Hub project is about?

The DigCompHUB project has releases a short explanatory video about the project. To learn more about what the project is about click.here.

The TRANSVAL-EU project, one of the largest policy experimentations in Europe for the validation of transversal skills of non-formal and informal learning (VNFIL), organized a Research Conference on 18-19 April in Paris and a Policy Conference on 24-25 May in Stockholm to share and discuss its research results and policy outcomes with an aim to make all skills visible in the framework of the European Year of Skills 2023. The results of the field trials conducted in Austria, Belgium, Italy, Lithuania and Poland for the validation and guidance of transversal skills show significant impact on both practitioners and candidates. The project aims to turn this policy experimentation into policy change at national, regional and European levels. As the project is coming to an end in August 2023, the research outcomes and policy recommendations will be soon published in two reports on the TRANSVAL-EU website.

D-PAIDEIA European Teachers' Consultation! The D-Paideia project is looking for teachers to participate in our first webinar on the 21st June (17:00-19:00 CET).

Teachers from different countries will be able to discuss and exchange their experiences on pedagogical digital competences and Educational Remote Teaching experiences during the Covid-19 pandemic. Each participant will be invited to answer a questionnaire about teachers'

To attend the event please register in this Google Form. The valuable contribution of each participant will be rewarded with a certificate of participation.

RAYUELA's TikTok Campaign has come to an end!

ALL DIGITAL, together with producer Ismène Elbers and artists Julia Adriana, 5 Times Rock and Kirk Tiller, has run a 5 month TikTok awareness raising campaign on cybercrimes. All three artists produced a song covering the topic of the month: fake news, cyberbullying, online grooming, cyberhate and human trafficking. Take a look at the full campaign here

Our Digital Village activities continue! Our Digital Village project's implementation started during May. On

10/05 one of the project partners, INOVA+ organised two info session to identify and understand the digital needs of citizens in Manteigas to include their interests and concerns in the training programmes that will be developed as part of the project. Other project partners are also in the process of organising info sessions with target groups. To find out more about latest project development, follow us on LinkedIn, and check out the project website

Call for inspiring practices As part of the iBox project, ALL DIGITAL, together with LLLP, L4WBF, CEMÉA, and EUCEN, is developing a compendium of inspiring practices on inclusion and diversity for education and learning providers. We are looking for practices in the following areas:

 Access and participation in learning processes Inclusion and diversity strategies
