

I-LINC REPOSITORY

BECOME A MEMBER

The I-LINC Repository (mainly based on the [I-LINC Online-Survey](#)) provides you with an overview of organisations, programs, projects and online networks working in the field of youth digital skills, youth employment and/or employment and entrepreneurial issues for digital jobs.

Browse through the database and find interesting stakeholders in your country, on European level or even in your neighbourhood. As a registered member you can relate your organisations to your projects and programs and to other organisations you are working with.

With this function I-LINC creates a stakeholder network showing cooperation all over Europe. **Maybe you find a partner for your next project here?**
