What is "Media Literacy"?

What is "Media Literacy"? - Legal Obligations

Recital 59 – Revised Audiovisual Media Services Directive AVMSD

‘**Media literacy**’ refers to skills, knowledge and understanding that allow citizens to use media effectively and safely. In order to enable citizens to access information and to use, critically assess and create media content responsibly and safely, citizens need to possess advanced media literacy skills.

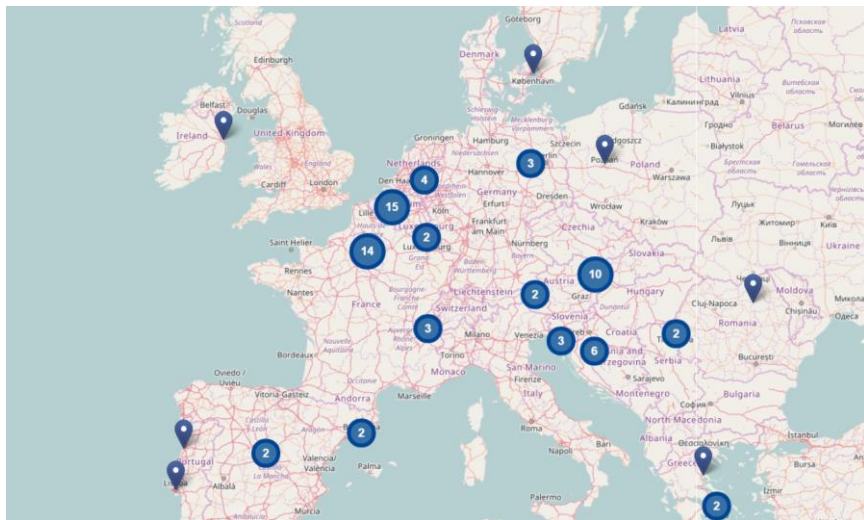

Media literacy should not be limited to learning about tools and technologies, but should aim to equip citizens with the **critical thinking skills** required to exercise judgment, analyse complex realities and recognise the difference between opinion and fact. It is therefore necessary that both media service providers and video-sharing platforms providers, in cooperation with all relevant stakeholders, promote the development of media literacy in all sections of society, **for citizens of all ages, and for all media** and that progress in that regard is followed closely.
