200000 DIGITAL COMPETENCE CENTRES

1500000

PEOPLE SUPPORTED EVERY YEAR

We are a leading pan-European association based in Brussels. representing 70 member organisations that work with 20,000 digital competence centres, providing training and advice to 1.5 million people in Europe every year.

Our focus is to support Europeans who have an insufficient level of digital skills. This means they have less chances to find work, to use online services, to have a better quality of life, to be included in today's society.

We believe that every European should be able to exploit the benefits and opportunities created by digital transformation.

ALL DIGITAL is a membership association with a strong foundation in its member organisations.

Three types of activities:

1. Capacity building

- Access to training and content, awards
- Brokering for the sharing of products, knowledge and expertise between our members
- CoPs, WGs, Thematic clusters

2. Advocacy

- Promotion and dissemination
- Increased visibility at European level and enhanced credibility at national level
- Manifesto for Digital Competences

3. Research and innovation

- Surveys to study trends in digital transformation aspects
- Access to reports and studies on areas of interest
- Research projects

- Improved citizenship is the primary aim of developing digital competences.
- Supporting citizens to enhance their digital competences should be done with the purpose to include them in modern societies that undergo digital transformation. No citizen should feel excluded

- Raise awareness among seniors and their families on the importance of new technologies to manage their activities and time in a more effective way.
- Raise awareness among young people on the importance of supporting older people in the digital society.
- An intergenerational learning approach to foster can increase self-confidence of older people in using ICT tools.
- Develop private-public partnerships to support such initiatives involving companies and training providers working on active ageing and digital inclusion in formal and non-formal education.

- Use online tools that are user-friendly and adequate to support older people and the special needs of their age.
- Adopt a training approach personalised to the individual needs and capacities of each elder.
- A well supported community of trainers and learners can ensure high impact and long-time sustainability of results.
- Support pedagogical and digital upskilling of educators in formal and non-formal adult education.

We have 10+ years of experience in project management and coordination

We are currently running:

- 4 EU-funded projects as project coordinator
- 16 EU-funded projects as project partner

Title: Digital Competences Development System (DCDS)

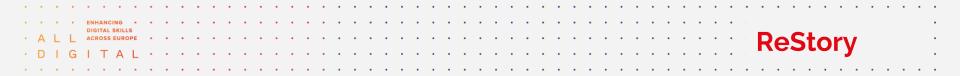

Aim: Develop an integrated modular system, the "Digital Competences Development System - **DCDS**" and use it to develop **basic digital and transversal competences** of low-skilled adults in five European countries (Greece, Latvia, Italy, Romania and Spain).

The DCDS online platform includes:

- Self-assessment tool on basic digital competences;
- Online tools for the management of trainees' profiles and the definition of flexible learning pathways that combine training modules;
- Online learning application with gamification features;
- Handbooks and course guides for implementing the methodology

DCDS is aligned to **DigComp**, level 1 and 2.

Website: http://www.dcds-project.eu/

Title: ReWrite your story (ReStory)

Aim: Advance the quality of services related to elderly care.

The project will:

- Provide care-givers with a handy toolbox, which boosts and updates the quality of their services, broadens their knowledge and skills, and advances their career practice.
- Focus on re-training care givers and e-facilitators working with seniors in digital literacy programmes, introducing new approaches in their work with seniors through artistic techniques based on story telling practices, combining digital and soft skill methods.

Title: ICT 4 the Elderly

Aim: facilitate a pathway for up-skilling the digital competences of **older people**

- Collection of **Best Practices and training materials** (OERs) related to digital skills.
- Developing of Training Manual and Online Academy aimed at older people.
- Produce a Project Exploitation Guide to facilitate the transferring and scale up of project results

Title: ICTSkills4All – Empowering old citizens for a digital world

Aim: Fostering digital skills, self-confidence and online safety of older people aged 55 years and over who have minimal or no engagement with digital technology.

The ICTskills4All Learning Programme includes:

- An online platform with information, training tools & resources addressed to an older population who has low digital skills;
- F2F support using the intergenerational and peer-to-peer approach for those with no digital skills, to provide them with the basic digital skills they need to access the platform.

Website: https://www.ictskills4all.eu

- Annual digital empowerment campaign organized in March since 2010
- Engages people to use technology and the Internet with confidence and skills that allow them to benefit from digital transformation.

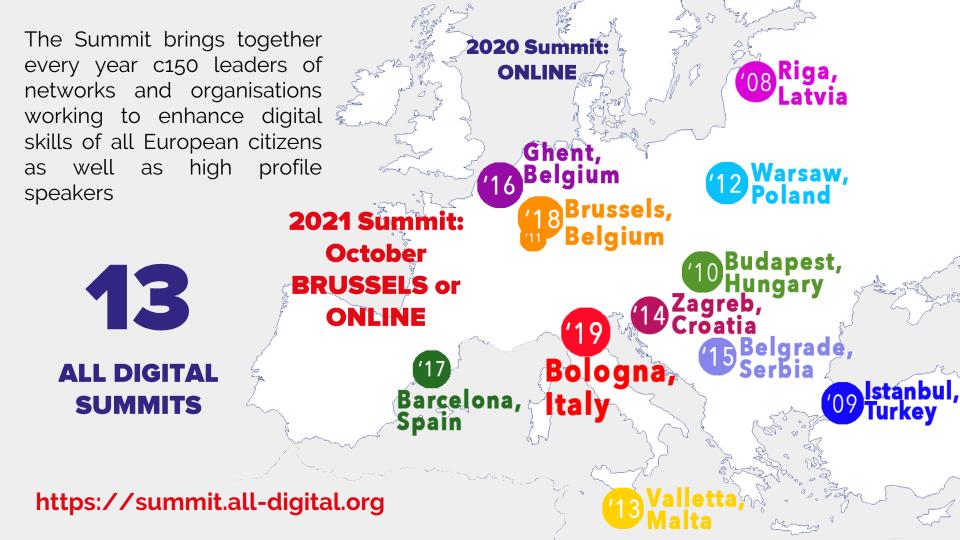

Why do we need ALL DIGITAL Week?

Stats from Digital Economy and Society Index Report 2020 (1), Digital Education Action Plan Factsheet (2,3), Fake news and disinformation online report (4), Attitudes towards the impact of digitisation and automation on daily life survey findings (5)
