

**Digital
Fair, more peaceful, and juster.**

Digital advances can support and accelerate the achievement of each of the 17 Sustainable Development Goals

- ending extreme poverty**
- reducing maternal and infant mortality**
- promoting sustainable farming and decent work**
- achieving media, digital, health and universal literacy.**

- **Healthcare** Laboratory

**Digital technologies can also threaten privacy,
erode security and fuel inequality.**

They have implications for human rights.

**Like generations before, we must create strong
partnerships – governments, businesses, civil
society and individuals – to have a choice to make
in how we harness and manage new technologies.**

Act now
Be part of the change!
