Co-funded by
the European Union

The pilot trainings have begun for Green at You partners. In March's newsletter, you can get a glimpse of how the training is going in each itinerary.

Sustainable Forestry Management (Madrid, Perugia, Belgrade)

Opportunities for Entrepreneurs in Sustainable Forestry Management offers a comprehensive view of the business opportunities available for both rural and urban entrepreneurship, based on the principles of Sustainable Forestry Management (SFM).

Duration: 3 months

Format: Hybrid

Nature-Based Solutions (Foligno, Madrid)

The course emphasizes the integration of circular economy principles, sustainable materials, and emerging technologies in NBS projects, while fostering a comprehensive understanding of sustainability across environmental, social, and economic dimensions.

Duration: 3 months

Format: Hybrid

Energy Advisor (Madrid)

Energy advisors help households optimize energy consumption, navigate government incentives and regulations, implement renewable self-consumption and energy communities, and enhance energy efficiency through home retrofitting.

Duration: 3 months

Format: Hybrid

Energy Community Manager (Rome)

The Energy Community Manager is a new professional figure that is developing thanks to the expansion of the CER, capable of managing not only the energy system but also the relationships between community members.

Duration: 3 months

Format: Hybrid

Educational Farm Operator (Foligno, Athens, Malta)

As a Farm-to-Table Operator, you'll play a vital role in promoting sustainable farming practices, educating communities about mindful food consumption, and fostering environmental stewardship.

Duration: 3 months

Format: Hybrid
