

Join our CodeWeek matchmaking platform & help shape the future of digital education!

How it works for

Volunteers

1. Register via the online form (individuals/ organizations).
2. Get approved within 7 days and officially become a Digital Volunteer.
3. Get contacted directly by schools/ educators to deliver sessions on coding, AI, cybersecurity, and more.

Join today and share your expertise with schools across Europe!

How it works for

Schools & Educators

Use the Code Week Matchmaking Tool to find Digital Volunteers who will help your students develop their digital competencies!

1. Access the platform and explore the database.
2. Search & filter by expertise topic, language, location, availability, and more.
3. Tailored list of volunteers who match the filtered needs will show.
4. Click 'View Profile/Contact' button to see volunteers' full professional and contact details .
5. Contact the right volunteer directly to plan your session.

Why is it helpful for schools & educators?

A wide range of digital experts from industry, academia, and NGOs at your disposal

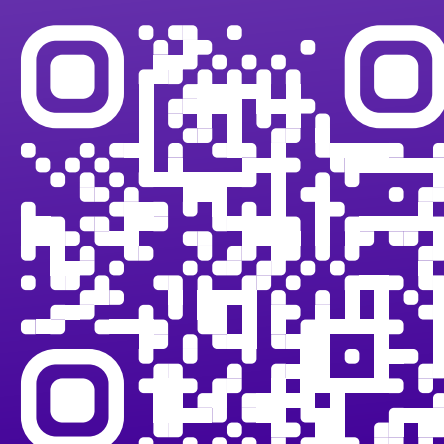

Easy access to experts according to your needs and using simple filters

Direct contact with no intermediaries to plan volunteers' support according to your needs

Flexible and multilingual formats, online or in-person
